

STAINLESS STEEL CABLE TIES

A

- **Ideal Applications:** harsh, corrosive, and salt-water environments, chemical and radiation exposure, temperature extremes, food processing, and vibrating equipment
- **Ball Locking** mechanism provides ease of insertion and high tensile strength
- **Temperature Resistance:** -80°C to 538°C
- **Resistance Against Chemicals:** Acid and Alkali Resistant

Dimensions for Roller Ball Ties

Tensile	Width	Thickness
150 lb	0.181"	0.010"
250 lb	0.311"	0.010"

- Ideal for high corrosion areas
- Excellent resistance to temperature and moisture variations.
