

## Circuit Breakers

### High Amperage Circuit Breakers

High Amperage Circuit Breakers are typically used in auxiliary and accessory circuits for Trucks, Buses, RVs and Marine applications (42V DC Maximum). Other applications may include battery charger systems as well as DC audio systems. They also contain stud insulators to protect from dust, dirt and moisture. Housings are manufactured with Thermoset plastic (UL rated 94VO) 155°C (311°F). Compliant to SAE J1625.

Temperature Ratings: Operating: -32°C (-25°F) to 82°C (180°F)  
 Storage: -34°C (-30°F) to 149°C (300°F)

#### Manual Reset (Type 3), Surface Mount – 'OEM' Series

Techspan High Amperage Manual Reset Circuit Breakers ('OEM' Series) feature a unique and simple reset mechanism that also provides an easy indication of an open circuit... the lever becomes visible. To reset, all that is needed is a simple push of the red button.

Amperage	Part#	Amperage	Part#
50A	766018	100A	766026
60A	766019	120A	766027
70A	766024	135A	766028
80A	766025	150A	766029
