^{*}Black vinvl jacketed 302/304 stainless steel wire.

Material

SunRunner 24 gauge 304 stainless steel

SunBundler Stainless steel and UV protected vinyl

 Robust "double-compression" design accommodates from (1) 12 gauge USE-2 to (2) 10 gauge PV-1000 solar wires. Also for use with other

cables from .20" (5,0 mm) to .30"

(7,6 mm) in diameter.

- Heyco SunRunner clips are designed to provide a better method for PV module wire management and may be used wherever single or multiple cable management is needed.
- Smooth clip edges prevent damage to cable insulation.
- Locking tabs securely fasten clips to module extrusions, or other panels.
- Generous lead-in for installation without tools.
- Screwdriver slot for easy removal or movement of clips if necessary.
- Neatly dresses cables on PV panel frames or along mounting channels.
- Fits module frames up to .125" (3,2 mm) thick.
- Constructed from corrosion resistant 304 stainless steel.
- Extremely durable, vinyl jacketed Stainless Steel Cable Tie.
- Smooth vinyl jacketing prevents damage to installation cable insulation.
- Tin plated copper crimp sleeve for easy field installation.
- UV protected vinyl jacket is excellent for solar installation where product durability is required.
- Use standard wire cutters to both crimp the sleeve and cut the excess wire.
- Constructed from Commercial Aircraft Grade Stainless wire with UV protected vinyl jacket.
